

Verification 2008/2009 Verification e-form

This year is the first time NGR will be offering growers the chance to complete their Verification form online.

The Verification will be available through the secure NGR website at www.ngr.com.au. If you would like to complete your Verification electronically, simply click on the link, download and complete an online access form at www.ngr.com.au/downloads or request one by emailing admin@ngr.com.au

By registering for online access you will also be able to update your registration and payment details at anytime, thereby saving you time and paperwork.

Please note: Some changes require signatures, therefore you may still require a paper-based form depending on the changes you require.
