

# Commodity Vendor Declaration

Our revolutionary end-to-end digital Commodity Vendor Declaration (CVD) streamlines the contract compliance process for Growers, Buyers, Receivers and End Users without the messy paperwork.

## Once Only

Single input data means that declaration information is input once only and transferred digitally between a Grower, Trader, Receiver and End User for improved accuracy.

## Instant

After submitting, the CVD is immediately available to the Data Subscriber (where they are listed and subscribed on the Grower's NGR Card) for passing along as the trade continues.

## 24/7 Access

As CVDs are stored electronically in myNGR, they remain accessible online 24/7, indefinitely for listed and subscribed NGR Cards.

## Request

Traders can request a CVD from a Grower as part of the trade admin process. Making it even simpler to finalise a transaction.

## Added Features

- Specify different receiver and receival sites to buyer details.
- Select from pre-populated chemical measurements or add your own.
- Can be completed for any Data Subscriber registered within the NGR System.
- Via mobile, tablet or computer, wherever you have an internet connection, a CVD can be completed.

## About NGR

Since 2002 NGR has provided a simple, secure and streamlined online business register for users throughout Australia. Our service has revolutionised how the industry interacts – reducing administration and duplication for Growers and Data Subscribers across the Australian Agriculture supply chain.
